

FAQ GeoDAS How to Retrieve Logfiles

1. Introduction

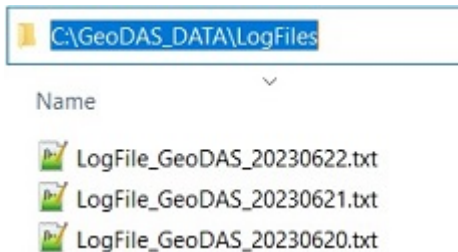

- This procedure describes how to retrieve logfiles from GeoDAS software
-

2. Required Tools

- GeoDAS installed on Windows Computer
-

3. Retrieve Logfiles

- Logfiles are stored in GeoDAS data folder under LogFiles (e.g. C:\GeoDAS_DATA\LogFiles>)

- There is a .txt file for every day GeoDAS was running
- Prefix is LogFile_GoeDAS_ followed by a date stamp in format YYYYMMDD
- The .txt files can be viewed in any text editor, time stamps correspond to PC time
- Large files can be zipped to save space
