

Electronic Technician / Support Technician (80-100%)

About us

GeoSIG Ltd is a global leader in developing, manufacturing, and providing advanced measuring solutions for seismic, structural, and dynamic monitoring applications. We're seeking a skilled individual to join our service & support team.

Position

Electronic Technician / Support Technician

Key Responsibilities

- ▶ Addressing customer's inquiries and delivering technical expertise
- ▶ Conduct device testing and equipment repairs while tracking failure rates and identifying critical issues
- ▶ Conduct comprehensive final testing of products to ensure quality standards are met
- ▶ Conduct engineering support activities such as review of procedures (manufacturing procedures, testing procedures, approvals, etc.)
- ▶ Develop and conduct training sessions for customers
- ▶ Carry out field installations and measurements
- ▶ Support other departments in creating technical documentation in English such as user's manuals, technical drawings, wiring schematics, etc.

Qualifications

- ▶ Possess an Electronic Technician certification (EFZ / CFC) or equivalent; higher education qualifications will also be considered.

Your Skills

- ▶ Strong technical proficiency with a proven ability to rapidly acquire new skills and knowledge
- ▶ Wide expertise in reading and interpreting circuit diagrams, with a strong understanding of the operational principles and key parameters of electrical components
- ▶ Excellent English communication skills (written and verbal), other languages are an advantage
- ▶ Proficiency with Microsoft Office products (mainly Word and Excel)
- ▶ Strong interpersonal and customer service skills
- ▶ Ability to work in a dynamic team-work oriented environment
- ▶ Adaptable to changing tasks and capable of handling pressure effectively
- ▶ Willingness to travel internationally on occasions

What we offer

- ▶ A dynamic and friendly work environment
- ▶ Diverse and engaging technical challenges
- ▶ Opportunities for growth in the electronic industry
- ▶ International exposure

If you're passionate about technology, enjoy working in a global context, and are ready to learn, grow and contribute to cutting-edge seismic monitoring solutions, we encourage you to apply.
