

GeoSIG Ltd is a long established Swiss manufacturer of a range of Instruments used in the Earthquake and Vibration monitoring field. We currently have a vacancy for an interesting and varied role for someone with an electronics and/or industrial background. To strengthen our team we are looking for an

Production Support Engineer / Technician

The Role:

- Support production, service and engineering teams in everyday challenges
- Maintain up-to-date production procedures and product documentation
- Support manufacturing of seismic instruments (customer-specific projects)
- Design and develop production tools and protocols
- Troubleshoot defective products and/or components
- Suggest improvements and optimization to existing product design
- Improvement of quality procedures, protocols and user's manual

The Candidate Requirements:

- Completed education as an Electronic Technician (EFZ / CFC) or higher education
- Practical experience in the technical industry or passion for electronics
- Very good technical understanding of electronic circuits and components (reading datasheet, proposing alternatives...)
- Good expertise with laboratory equipment (Multimeter, oscilloscope...)
- Knowledge of CAD tools (PCB design and 2D/3D modelling)
- Fluent in English, both written and spoken. Each additional language is a plus
- Open, flexible and team-oriented personality
- Good interpersonal and communication skills

Working for GeoSIG, you will be in a highly technical environment, enhancing your skills and business acumen and opening up new horizons to the diverse and dynamic ways in which your experience can be utilised.

In a young and dynamic environment, we offer varied and interesting technical challenges. Being independent and well organized and being focused on quality and efficiency will ensure you succeed in a passionate sector of the electronic industry.

Are you interested in being a part of our team in an international environment and would like to apply for this position? Then we look forward to receiving your application via email.
